26 MEN EXEMPTED

BOARD CERTIFIES NAMES OF THE MEN WHO ARE DISCHARGED.

ARE STILL CHECKING UP

The Results of Examinations Held This Week Will Be Known in a Day Or So—Injustice to Drafted Men.

The following twenty-six men were allowed claims for exemption from military service by the local exemption board late yesterday afternoon. Twenty-five of these claims were granted on the grounds of dependency. One claim, that of James Todd, was granted on the grounds of being a government official.

They are:

Edward Francis Archer, Conception.

Donald De Albright, Hopkins.

Carl R. Weathermon, Guilford.

Abraham C. Needles, Parnell.

Frank Milton Griffith, Maryville.

Ora Carl Carmichael, Burlington Junction.

John Edward Grey, Clearmont.

Fred Lee Dukes, Sheridan.

Elma Franklin Richey, Burlington Junction.

Clifford R. Skinner, Maryville.

Fred Arthur June, Barnard.

Ova Hugo Hardin, Maryville.

Martin Olda Adams, Wilcox.

Archie S. Strange, Quitman.

The board today is passing on claims and certifying the names of men to the district board at Kansas City. The results of the examination have not been checked up completely as yet and the board is unable to say whether it will be necessary to call out more men to secure the county's quota.

Roy John Schulte of Maryville has filed appeal to the district board on the ground of physical examination, claiming a weak knee.

Arlo M. Gingrich of Maryville was examined by the board at Port Washington, Wis., and was passed. He filed no claim and has been certified to the adjutant general of Missouri.

Notice was received by the board today that Fred Demory of Clearmont and Walter P. Griffith of Hopkins, have enlisted.

The board received a telegram this morning stating the whites and colored drafted men should be segregated when entraining for camp. As there are no colored men here who have been accepted, the order will not apply here.

The district draft board at Kansas City has decided that the United States provost marshal's office and the state adjutant general's office are doing injustice to the men drafted and awaiting call. It was said some time before the drawing that every drafted man would know some time in advance of his call to the colors just when he would be called and what he could expect in the way of orders for his service as a soldier. Today, however, the drafted men and draft boards alike are lost in uncertainty as to what the future holds.

Thousands of men have been losing time and money, have been inactive or half heartedly interested in their work the board members believe, because of the uncertainty of what each new day would bring them. If the drafted men only can be informed somewhat definitely when they will be called, their work can again become normal, and they can arrange their business affairs to meet conditions.

The higher officials apparently have lost track of orders of various sorts, with the result that general confusion has resulted, it is said. The board members have decided to work out a definite plan of action and carry it through, making their own interpretations of situations otherwise unworkable. In this way they expect to get through their work much faster and to relieve the nervous strain on all the young men concerned.

One situation was cleared up yesterday when the board received an order from J. H. McCord, adjutant general of Missouri, to the effect that 5 per cent of the quota would be called on the first summons. By the terms of the order the district board must certify that percentage of Nodaway county's quota September 1, to the local board and to the adjutant general.

This percentage will take eleven men from Nodaway county. The board has until September 19 for certifying the men to make up the 40 per cent of the quota to be sent soon after that time.

IN BICYCLE ACCIDENT

Leonard Carstens and Clyde Geist Sustain Bruises When Thrown From Wheel.

What might have been a serious bicycle accident occurred yesterday afternoon when Leonard Carstens, son of Mr. and Mrs. J. H. Carstens of 222 East Sixth street, and Clyde Geist, son of Mr. and Mrs. L. H. Geist, who live at the corner of Fifth and Buchanan streets lost control of a bicycle on which they were both riding down a steep hill. It seems that the boys were going down the East Sixth street hill which is quite steep, the Geist boy propelling the machine and the Carstens boy riding on the handle bars. About half way down the hill the coaster brake failed to take hold and the boys became frightened and turned from the street onto the sidewalk. At the end of the sidewalk is a jump-off and when the bicycle reached this place going at high speed they were hurled from the wheel to the ground so violently that they were knocked unconscious. The boys recovered consciousness soon after however.

M. McDonald recommended it be done. The matter was left in the hands of Supt. McDonald who will report to the board at a later meeting.

The board decided to dismiss school next Thursday and Friday on account of the county fair.

RED CROSS LIST READY

More Than 7,000 Donations to the Fund in This County—Urgent Need Now is For Knitted Goods.

The work of tabulating the subscription list for the Nodaway County Red Cross chapter is nearing completion and will be sent in to the national headquarters at Washington within a few days.

The givers to the fund are more than seven thousand and with the careful handling necessary to such work, the making of the records has been a heavy task for the officers of the local chapter.

As soon as specified directions are received from the national headquarters, Dr. F. R. Anthony, county chairman, will organize the local members into active working units.

Many inquiries are coming in to the local officers as to when the magazines will reach the subscribers. Knowing that from all over the country, the subscription lists with accompanying donations are pouring into headquarters in the same ratio as from Nodaway county, the workers there have a gigantic proposition to handle and returns to all these new subscribers could not reasonably be expected for several months.

The national chapter has asked for knitted pieces, hospital clothes and surgical dressings. One of the urgent needs now is for knitted goods to be ready to send to the men before the cold weather begins. The supplies are to be purchased from the Red Cross funds and the work done by the women, all under the government orders and plans.

Dr. Anthony expects these instructions within the next two weeks and the women can then do their loyal "bit" for the soldiers.

Communication

The main object of this little sketch is to help you, whether or not, you possess any knowledge of art matters, who are desirous of having applied to your home, recognized and advanced decorative painting.

The history of the past, as presented by the artistic works which have been spared to us, makes one think very differently of the men of old than we should gather from the mere written records of their doings.

In like manner we are inscribing in our "every-day art," annals of our life and inmost character; and we impress our works with true earnestness, and our individuality does not fail to favorably assert itself.

From the early part of this century up to within the last fifteen or twenty years, people were content to "beautify" their homes with whitened ceilings, graining, and wall papers, the latter being as bad as meretricious design and vulgar coloring could make them; but now, despite less prosperous time, there is a growing desire for better things, and society is not so content with the household goods and internal finishings which satisfied their apathetic parents.

Those of you who have a hankering for the beautiful, will be ever on the alert for one that can produce goodly form and color, one who possesses an inborn power to depict something of the rare world they see, it behooves you to take advantage of the generous gift, and delight the vision of those in your home.

Our designs are pleasing, and effectually veil all its means and artifices. They depend really on the relative harmony of the several colors and ornamental forms as affecting one another, and the architectural field they overlay; we give them a thoroughly arranged power of concentration. We give our minor details a place in subordinate parts; but the enrichments proper command an important position.

Be the home ever so characterless, from an architectural point of view, we can adorn its walls with beautiful sentiment and color, and visually correct its imperfections.

Beauty is not peculiar to the palace. It is quite as much at home in the cottage. It might dazzle us in the one, but it will charm us in the other.

If, fortunately, the house be of good proportions and fair architectural detail, we can decorate up to its excellence, the walls affording a most delightful plot for illumined story.

We are also ready to receive your order for a beautiful hand painted pastel scenery. No better Christmas present for mother, sister or your sweetheart. Prices range from $5.00 to $100.00, with or without frames. For pictures call for Clifford Thompson.

Starting the New Plan

NEXT SATURDAY, SEPTEMBER 1, we inaugurate the strictly Cash business in our store. And in doing this we wish to have you feel that we believe it is as much to your interest as it is to ours, because under the Cash System we are going to be able to make better prices to our customers than we have been under the old credit system. Operating for cash enables us to carry on our business with less capital than is necessary when we sell for credit—and the larger business we can do on a small investment the closer prices we are enabled to give our customers. Selling for cash is the modern way of doing business, because it puts the merchant in position to meet any competition at home or abroad.

Admire Babies?

Every normal woman's heart thrills with the thought of possessing a baby. What man can fully perceive the sympathetic understanding and the lovelight that glows in a woman's eyes at the sight of her flesh and blood represented in the tiny infant. Every woman in the joy of coming motherhood should prepare her system for the crisis and the unusual strain. Three generations have found the tried and reliable external application, "Mother's Friend" of the greatest help at such a time. By its daily use throughout the period, the skin of the abdomen is made soft and elastic, the expanding muscles relax naturally and with ease, when baby arrives, and the inflammation of breast glands is soothed.

By no chance neglect to obtain this great preparation which science has offered for so many years to expectant mothers. Write the Bradfield Regulator Co., Dept. L, 209 Lamar Building, Atlanta, Ga., for their helpful and interesting book, "Motherhood and the Baby". It is free and is well worth writing for. No woman should fail to help nature in the severest strain ever put upon her. "Mother's Friend" is procurable from any druggist and is a real help to nature in her glorious work. "Mother's Friend" is absolutely and entirely safe.
